Runi Framework

<http://runi-framework.com>

Runi Framework is a Joomla! 3.5 Template Framework that gives you a lot of options, extra and powerful features to your Joomla! 3.5 templates with flexibility, feasibility and extensibility. Using Runi Framework, you may create a template or beautiful design according to the Joomla! 3.5 and its extending, while you would provide extra controls to the design that can be easily customized.
